

The Logistics Partner concept is part of Retrade's quality assurance programme, which aims to ensure the quality of the companies and personnel presenting the asset information and the standards for asset condition, information and photos.

Retrade's surplus sales service is handled by separate, quality assured companies. The flow of goods (Logistics partners) is entirely separated from the flow of information (Retrade) and the flow of cash (Lindorff) ensuring impartiality and neutrality in all transactions.

A visual inspection is made, and also function tests when possible. No comprehensive testing is made of technical specifications for the item.

Det er foretatt visuell inspeksjon samt funksjonstest der det er mulig. Det foretas ikke grundig testing av tekniske spesifikasjoner gjeldende for objektet.

Logistics Partner: LogistikkPartner Norge.

A handwritten signature in blue ink that reads 'Martin Steen'.
